01 PROFESSIONAL PROFILE

Calm support, structured thinking.

I am a Berlin-based career changer focused on IT support, service desk and technical operations. Guided rollout practice, structured projects and formal training have given me a grounded approach to Windows, Microsoft 365, troubleshooting, ticket documentation and networking.

More than five years across Federal Voluntary Service and subsequent employment at Lebenshilfe Berlin taught me to communicate calmly, protect sensitive information, coordinate priorities and turn unclear problems into practical next steps.

Target roles

IT Support · Service Desk · Desktop Support · Workplace IT · Technical Operations · Hardware Rollout Support · Junior System Administration

WHAT I BRING

- Methodical troubleshooting and clear escalation context
- User-focused communication from a demanding service environment
- Guided practice in support, rollout, imaging and handover
- Analytical depth from physics, computing and technical training
- Clear separation of employment, guided practice and labs

CURRENT STATUS

Berlin · Available immediately
English native · German B2
Eligible to work in Germany
No sponsorship required

CORE CAPABILITIES

Workplace & Service Desk	Incident triage · ServiceNow documentation · Windows 10/11 · Microsoft 365 · onboarding/offboarding · peripheral support
Troubleshooting & Networking	Hardware/software isolation · TCP/IP · DNS/DHCP · Wi-Fi/VPN · gateway and TCP-path checks
Rollouts & Operations	Hardware preparation · Windows imaging · secure data wiping · connectivity checks · documented handover
Systems & Automation	PowerShell · Linux · Teams · Zoom · Entra ID/Intune labs · AD DS · DNS · GPO · Python · Docker · Git

02 FORMAL EXPERIENCE

Service, responsibility and documentation

09/2020–03/2025	Educational Support Assistant Lebenshilfe Berlin · Berlin Supported clients and colleagues in a demanding service environment, coordinated daily priorities and maintained accurate digital records for sensitive matters.
09/2019–08/2020	Federal Voluntary Service, Residential Facility Lebenshilfe Berlin · Berlin Supported reliable daily operations and coordinated sensitive tasks closely with qualified professionals.
Ref. 03/2019	Programs Coordinator Impact Health and Disability International (iHAND) · Ghana Involved from December 2016; supported administration, programmes, fundraising, community outreach and reporting.
Ref. 04/2019	Field Officer ARA in Ghana · Voluntary-service support Supported Greater Accra and Central region activities connected with Weltwärts and medium-term voluntary-service programmes.
2017/2018	Ghana National Service University of Ghana, College of Health Sciences Completed mandatory National Service in an administrative and operational environment.

TRANSFERABLE RELEVANCE

User support	Calm communication, patience and clear explanations
Operations	Prioritisation, reliable follow-through and team coordination
Documentation	Accurate digital records, confidentiality and defined procedures

03 GUIDED PRACTICAL TRAINING

IT support and rollout practice

Bakalorz IT Services · Intermittent, 2025-2026

Guided Practical Training and Skills Development

Completed guided practice in 1st- and 2nd-level support processes, incident triage, ServiceNow ticket documentation, onboarding and offboarding workflows and structured escalation.

- Hardware preparation and Windows imaging
- Secure data wiping and documented procedures
- Peripheral and connectivity checks
- User handover and escalation context
- Raspberry Pi, thermal printer and mobile-connectivity familiarity

ACCURACY NOTE

Unpaid, intermittent practice—not employment, contracting, freelancing or a client assignment.

SELECTED TECHNICAL WORK

INDEPENDENT PROJECT

IT Support Operations Toolkit

Read-only Windows, gateway, DNS and TCP-path diagnostics with JSON output and structured runbooks.

TECHNICAL LAB

Identity, Endpoint & Server Administration

Entra ID, Intune, Conditional Access, AD DS, DNS, GPO, PowerShell and Pester workflows using synthetic data.

PRACTICE FRAMEWORK

Meeting-Room Support

Teams, Zoom, AV signal paths, cameras, microphones, displays, USB/docking and escalation.

INDEPENDENT PROJECT

Confidence-Aware Visual Inspection

Six-class PyTorch CNN on procedural textures, with FastAPI, Docker, evaluation and reproducible validation.

Repository claims have been checked against public source, tests and validation. They remain deliberately limited to what the published evidence supports.

04 EDUCATION & CREDENTIALS

Verified learning and analytical foundations

Google IT Support Professional Certificate

Google · Coursera · Completed 4 September 2026

Five-course certificate covering troubleshooting, customer service, networking, operating systems, system administration and IT security. Verify credential.

AI Engineering and Computer Vision

IU Akademie · 19 August 2025–18 February 2026

Machine learning, deep learning, reinforcement learning, data-intensive software engineering, image processing and computer vision.

B.Sc. Physics (Computing), Second Class Honours

KNUST, Ghana · Awarded 1 June 2017

ZAB Zeugnisbewertung · German bachelor-level university equivalence · 10 June 2020
